

RUUD *ACHIEVER*® *SERIES* GAS FURNACES

Super Quiet 80™ Upflow/Horizontal with ECM® X-13 Motor

*There are
some things
in life
you can always
rely on.*

Ruud is one of them.

- Features an ECM X-13 Motor for highly efficient operation
- Our "Super Quiet" design provides dependable comfort without the sound generated by most 80% upflow/horizontal gas furnaces
- Compact and versatile design suitable for new construction or retrofit applications
- 10-Year Conditional Warranty on all parts, with a 20-Year Limited Heat Exchanger Warranty

**Consumer-Rated
#1 in Reliability**

Model RGPT

Quality That Endures

The Ruud Achiever® Series Super Quiet 80™ Gas Furnace combines super-quiet operation and legendary reliability to bring you total peace of mind and the best in home comfort – year after year. Some downflow gas furnaces cost more, some promise more, but *nothing* performs more reliably. It's that simple.

Protection You Can Count On

While your Ruud equipment is incredibly dependable and covered by an outstanding warranty, you can extend your warranty coverage with Protection Plus® extended service protection. Then you can relax and enjoy the comfort of your Ruud upflow/horizontal gas furnace – without worrying about the cost of parts or labor for unexpected repairs. And when Protection Plus is purchased in conjunction with your contractor's maintenance program, you can enjoy the peace of mind that your equipment will be both maintained and repaired – as needed and without additional expense. Ask your contractor about the variety of Protection Plus plans now available. For more information, call 1-877-276-4294 or visit www.protectionplusonline.com.

KwikComfort® Financing

Ask your Ruud contractor about KwikComfort® Financing, the easy and convenient way to finance everything associated with your Ruud equipment – your original equipment, all subsequent service, Protection Plus® extended service protection, and even the comfort options you might choose to add later.

Limited Warranty Information

Ruud supports its equipment with strong warranties and dependable, professional service. That's why Ruud backs the Achiever® Series Super Quiet 80™ downflow gas furnace with a generous 20-year Limited Warranty on the Heat Exchanger. All other parts have a Conditional Parts Warranty of ten years (Registration Required).

Features & Benefits:

- 1 Super-Quiet Design.** To help improve the sound quality of the Ruud Achiever® Series Super Quiet 80™, we re-engineered the door and top-plate to provide a sound barrier between the furnace's operation and your home.
- 2 Heat Exchanger.** Awarded three patents, the Ruud Achiever® Series Super Quiet 80™ heat exchanger is renowned for its dependability and efficiency. It's constructed of aluminized and stainless steel for maximum resistance to rust and corrosion. And it's backed by a 20-year limited warranty.
- 3 Induced Draft Motor.** This draft inducer, which was specifically designed for the Super Quiet 80™ upflow/horizontal gas furnace, quietly provides air for combustion while simultaneously venting outdoors the products of combustion from the furnace heat exchanger.
- 4 Gas Valve.** The redundant gas valve is a 24-volt slow-opening valve that delivers gas in a regulated flow to the patented "in-shot" burners.
- 5 In-Shot Burners.** The natural (or optional LP) gas is ignited by the direct spark ignition at the in-shot burners. The in-shot burner's shutter-free design requires no adjustments to regulate the air/gas mixture.
- 6 Direct Spark Ignition.** Direct spark ignition is an extremely dependable and efficient way to light the burner. And it eliminates the need for a standing pilot. For added safety, the remote flame sensor constantly monitors the burner flame to ensure it is operating as it should.
- 7 Adjustable Air Speed.** Thanks to adjustable controls for the blower, your contractor can precisely match airflow to the specific comfort requirements of your home.
- 8 Integrated Furnace Control.** The "Brain" of the Ruud Achiever® Series Super Quiet 80™ is the Integrated Furnace Control (IFC) which directs all activities of major furnace components. Built-in diagnostics allow for quicker & easier service calls, saving you valuable time & money. The control features low-speed continuous fan operation and accessory terminals for less expensive installation of additional Indoor Air Quality (IAQ) Products.
- 9 Easy Access Washable Filter.** The Ruud Achiever® Series Super Quiet 80™ is equipped with a permanent, washable filter that's easy to access and clean. You won't ever have to deal with the hassle and expense of replacement filters.
- 10 ECM X-13 Blower Motor.** Airflow control is one of the most important factors in maintaining the comfort level in your home. Ruud is pleased to offer the ECM X-13 Blower Motor that allows you to experience maximized comfort benefits and exceptional energy savings without having to pay top dollar. Designed to meet your comfort requirements, warmth is delivered throughout your home fast when needed. Utility companies may offer additional local rebates when you purchase a high efficiency furnace with an ECM X-13 Blower Motor. Call your local utility company for more information.
